

GENERAL CARGO

**From A to Z:
safe, smooth and reliable freight
management and supply chain solutions**

GENERAL CARGO

*A service experience that is both
professional and personal*

General Cargo

At **LTG**, we take great care in ensuring that your commodity is protected across the entire supply chain, offering companies and entrepreneurs the knowledge and solutions to expand their businesses.

From our strategically located warehouse near Rosslyn and our temperature controlled rooms near OR Tambo to your final cross-border destination, you can be assured of a personalised and professional service that is tailor-made to your specific requirements.

We also offer pre-shipment storage and packing services to ensure goods are ready for carriage, and provide a bond store for in-transit cargo at OR Tambo.

Our 1,000m² cold room facility is equipped to handle 100 tonnes of perishable commodity throughput per day and is certified by the Perishable Product Export Control Board (PPECB).

Our warehouse is operational 24/7, has a floor space of 6,000m² and offers clients storage space of about 12,000m². It is run on a highly efficient information technology platform integrating sophisticated warehouse management systems.

LTG's in-house logistics experts offer a comprehensive supply chain offering to assist you in making the best business decisions. In addition, we have the partnerships to negotiate the best rates and to manage import and export clearing, as well as ensure the best allocation and routing for all product handling.

*A service experience that is
both professional and personal*

Our supply chain offering

- **Procurement logistics** - centralised procurement, material requirements planning (MRP), enterprise resource planning (ERP) as well as forecasting and demand.
- **Financing** - structured and collateral management.
- **Compliance** - export declarations, commercial invoices, certificates of origin, letter of credit processing, carnets, and free domicile shipments, as well as government legislation and international regulations, such as SADC, EU, AGOA, ISF and AES.
- **Movement of cargo** - multimodal services for land, air and sea shipments, as well as warehousing facilities.
- **Risk management** - to mitigate financial-, cargo-, lead time- and on time delivery-, supply chain-, environmental and socio-economic risks.
- **Reverse logistics** – and registration for re-importation (DA 65) and temporary importation for processing repair shipments.
- **E-commerce** – electronic data interchange and communication, system integration.
- **Warehouse management systems** – warehousing, distribution, receiving, dispatch, inventory management, distribution, picking, packing, ticketing, crating, loading, and bonded and free store facilities.
- **Courier services** – regional, national and global delivery services.
