

PERISHABLES INDUSTRY

**For the freshest freight management
and supply chain solutions, in and out of town**

PERISHABLES INDUSTRY

Perishables Industry

At **LTG** we take great care in ensuring that your perishable commodity is protected across the entire supply chain. From our strategically located temperature-controlled handling facilities near OR Tambo to your final cross-border destination, you can be assured of a personalized and professional service that is tailor-made to your specific requirements.

We also offer pre-shipment storage and packing services to ensure goods are ready for carriage, and provide a bond store for in-transit cargo at OR Tambo.

The facilities are equipped to handle significant tonnes of perishable commodities throughout a day and are certified by the Perishable Product Export Control Board (PPECB).

Our comprehensive supply chain offering as well as in-house logistics experts will help you reap all your perishable commodity's rewards. In addition, we have the partnerships to negotiate the best rates and to manage import clearing, as well as ensure the best allocation and routing for highly sensitive product handling.

A service experience that is both professional and personal

Our supply chain offering

- **Order management system** – single or multiple supplier orders are entered into the system and are linked to the shipment reports. Simultaneous monitoring of orders and shipments.
- **Compliance** – export declarations, commercial invoices, certificates of origin, letter of credit processing, carnets, and free domicile shipments, as well as government legislation and international regulations, such as PPECB, SADC, EU, AGOA, ISF and AES.
- **Movement of cargo** – multimodal services for land, air and sea shipments, as well as warehousing facilities.
- **Risk management** – to mitigate financial-, cargo-, lead time- and on time delivery-, supply chain-, environmental and socio-economic risks.
- **Reverse logistics** – freight return, asset recovery, registration for re-importation (DA 65) and temporary importation.
- **E-commerce** – electronic data interchange and communication, system integration.
- **Warehouse management systems** – warehousing, distribution, receiving, dispatch, inventory management, picking, packing, ticketing, crating, loading, and bonded and free store facilities.
