GENERAL CARGO

General Cargo

At **LTG**, we take great care in ensuring that your commodity is protected across the entire supply chain, offering companies and entrepreneurs the knowledge and solutions to expand their businesses.

From our strategically located warehouses near Rosslyn as well as near OR Tambo to your final cross-border destination, you can be assured of a personalized and professional service that is tailor-made to your specific requirements.

We also offer pre-shipment storage and packing services to ensure goods are ready for carriage, and provide a bond store for in-transit cargo at OR Tambo.

Our access to cold room facilities in Pomona are equipped to handle significant tonnes of perishable commodities throughput per day and are certified by the Perishable Product Export Control Board (PPECB).

Our warehouse in Rosslyn is operational 24/7, has a floor space of 6,000m² and offers clients storage space of about 9,000m². It is run on a highly efficient information technology platform integrating sophisticated warehouse management systems.

LTG's in-house logistics experts offer a comprehensive supply chain offering to assist you in making the best business decisions. In addition, we have the partnerships to negotiate the best rates and to manage import and export clearing, as well as

A service experience that is both professional and personal

Our supply chain offering

- **Order management system** – single or multiple supplier orders are entered into the system and are linked to the shipment reports. Simultaneous monitoring of orders and shipments.
- **Compliance** – export declarations, commercial invoices, certificates of origin, letter of credit processing, carnets, and free domicile shipments, as well as government legislation and international regulations, such as SADC, EU, AGOA, ISF and AES.
- **Movement of cargo** – multimodal services for land, air and sea shipments, as well as warehousing facilities.
- **Risk management** – to mitigate financial-, cargo-, lead time- and on time delivery-, supply chain-, environmental and socio-economic risks.
- **Reverse logistics** – and registration for re-importation (DA 65) and temporary importation for processing repair shipments.
- **E-commerce** – electronic data interchange and communication, system integration.
- **Warehouse management systems** – warehousing, distribution, receiving, dispatch, inventory management, picking, packing, ticketing, crating, loading, and bonded and free store facilities.
